Bull & Female Production Sale

It is our pleasure once again to present to you what we believe is an outstanding group of cattle. These fall bulls are ready to go to work or can be taken back to Marywood and wintered for you until May 1, 2008. The cost would be \$60.00 per month. We believe this is the best set of bulls that we have offered. We have polled many homozygous polled, red, some homozygous red and non diluters and black. All the bulls have been bred on calving ease and fast efficient growth with easy finishing by fourteen months of age or less. These bulls never received more than 17 pounds of grain ration and balage was the main source of their diet. Our breeding goals remain the same, to produce bulls that reproduce the best females possible for Ontario conditions. Our guarantee is to have your cows bred and if for any reason the bull does not do his job give us a call and we will get a replacement in your pasture as soon as possible. We have the full range of Simmental, Sim Angus and Angus bulls available.

The bred females consist of cows, bred heifers, and calves. Milliner's continue to produce these heifers that are sought after. Many are black and there are five breds from our program. There are some 4H prospect calves and cow, calf pairs calving from January to April 2008.

Marywood, Waydamar, Bar 5 and Richwood all stand behind these cattle. Buy with confidence.

Cheers,

Ron Wooddisse

See Table Below

ABC (Across Breed Comparisons) percentiles are reported so that a producer can directly compare bulls of different breeds for a number of economically important traits.

CE	BW	WG	YG	Milk	Marb	REA	Fat	SC
Calving Ease Percent of unassisted calves from heifers	Birth Weight Expected birth weight of calves	Weaning Gain lbs of growth from birth to weaning	Yearling Gain lbs of growth from birth to yearling	Milk lbs of calf at weaning due to milk of daughters	Marbling Adjusted for age and weight	Rib Eye Area Adjusted for age and weight	Backfat Adjusted for age to 365 days	Scrotal Circ. Adjusted for age and weight

BW	AWW	WI	ADG	WPDA	Wt	BF	REA	LMY	Frame	SC
Birth Weight (lbs) Actual birth weight	Weaning Weight (lbs) Adjusted to 200 days and for age of dam	Within Herd Ratio of AWW to average of contemporary group	Average Daily Gain	Weight per Day of Age	End of Test Weight (lbs) or most recent weight at station	Backfat (mm) Measured ultrasonically	Rib Eye Area (sq. in) Measured ultrasonically	Lean Meat Yield Ultrasound msmt., not an EPD/ABC	Frame Score Based on height and age	Scrotal Circ. (cm) And indication of a bull's semen producing ability

Homozygous - has 2 genes for a trait. Homozygous polled bulls will only produce polled calves even when mated to horned cows.

Double Polled - both parents are polled so the calf has a chance of being homozygous polled.

Scurred - small horn like protrusions on a polled bull. These bulls will still produce polled calves. It is even possible for a homozygous polled bull to have scurs.

Fat: 4 REA: 13.8 LMY: 66

Grade: A-AA SC: 36

Comments:

This bull is long bodied, packed full of potential to be as good a breeder as any black bull we have produced. I would guess this guy is the highest percentage retail meat of any bull in the offering and is from a quality packed female line, the Heather cow family.

BRED HEIFERS

The next five lots are bred heifers that were exposed to MRJW 98R, a black polled Redman son from March 21st to June 30th, 2007.

All have been checked safe to this early exposure. They have tremendous EPDs and great cow potential and are being offered as we are out of room at home.

Exposed to & HRC Fire Power 42N from June 17 to July 20, 2007 & 3C Redman 660M from July 21 to November 10, 2007 This female is an efficient productive female out a cow we purchased at the VanAnkum dispersal and goes back to the old Beauty cow. We think this calf would make a great show steer for some young 4-Her.

 Exposed to 3C Redman 660M from March 20 to July 30, 2007 Safe: 5 months on Sept13/07 Due: January 2008 We really like the mother of this female. Management caused her mother to loose time but she calved in 2007 on May 27 backing up 5 weeks. Fertility goes without question as 64S will calve at 18 months of age. She may need extra care but what a cow she will make and double Tanya. We missed ultra-sounding this female because of her age.

Comments:
 This Simm/Angus bull will put some hybrid vigour into anyone's herd. The combination of a Simm cow that is a great producer and the famous Marias Red Angus bull gives you the best of both worlds.

Comments:
 A heifer bull that showed lots of potential on the BIO test. His moderate size makes him eligible. There is not a lot of guess work with a pedigree like this.

Notes:

TERMS AND CONDITIONS

TERMS: The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. Carson's Auction Services reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase, Carson's Auction Services reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BIDS: Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES: In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on such matters will be final.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY: The proper Registration or Recordation papers, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

SHIPPING: Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or the Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE: Cows represented as being "pregnancy tested safe in calf" have been examined and declared safe by a licensed veterinarian. They are considered breeders without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. Cows and open heifers selling as individual lots are guaranteed to be breeders. No guarantee shall apply to suckling calves. In the event a female is claimed to be a non-breeder after having been bred regularly to a bull known to be a breeder and after having been treated by a licensed veterinarian the matter must be reported in writing to the seller within six (6) months of sale date. For heifers under twelve (12) months of age and purchased as single lots and who fail to conceive to the service of a bull known as a breeder, the matter must be reported in writing to the seller before the heifer reaches eighteen (18) months of age. The seller shall have six (6) additional months in which to prove any such female a breeder and may use any registered bull of the breed available to him. Any female returned will be at the purchaser's risk. No guarantee is given that a pregnant female will deliver live calves or that she will carry calve full term not that the calf carried will not be mummified. The seller is not responsible for damage caused by foreign bodies after the animal has been sold not for sickness not apparent at sale time.

EXCEPTION TO GUARANTEE: In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

ACCIDENTS: Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Manager, Auctioneer, or Consignor assumes any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS: The above terms and conditions of the sale constitute a contract between the buyer and the seller and are equally binding to both.

PROVISION AND USE OF INFORMATION PRODUCED BY BIO: As part of the terms and conditions of BIO's Beef Evaluation Services, it is understood that information provided by BIO including, but not limited to, genetic and carcass evaluations are produced using the very best knowledge available and are pursuant to generally accepted industry standards. The intent of the information provided by BIO is for comparative purposes only for both the animal consignor and buyer. This information is provided for the purpose of general guidance only to beef producers. The purchaser and/or user of this information agrees to hold Beef Improvement Ontario harmless for any losses or damages that may be incurred as a result of receipt of and/or reliance upon this general comparative information. This clause shall be a complete defense to any claim brought by the purchaser and/or user in relation to such services.

CARSON'S AUCTION SERVICES ARE AGENTS ONLY: It is to be clearly understood that Carson's Auction Services are only acting as a medium between buyer and seller and are not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Carson's Auction Services assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between the buyer and the seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or the Sales Manager.
